

Compatible Ethernet Dongle Chipset with PM75 & PM90 Single Slot Cradle

APPLIES TO

PM75 & PM90 Single Slot Cradle

PM75 and PM90 support Single Slot Cradle (SSC) for device and battery charging and communication (sold separately).
SSC provides a USB Type C port. If you want to connect an ethernet dongle to SSC, you should verify the dongle's chipset is compatible with SSC.

The following table listed the compatible chipsets with SSC. The compatibility depends on the Android version of PM75 / PM90.

Android Version	Compatible Ethernet Dongle Chipset
Android 9 (PM90)	• MicroChip: LAN9500 / LAN9500A
Android 11 (PM75, PM90)	• Realtek: RTL8152B / RTL8153 • ASIX: AX88178A / AX88179
