

Apk Analyzer - Package and Activity Name

When you use Scan2Stage, it may require the application's package and activity name.

You can use the Apk Analyzer application to find those names.

BEFORE START

Download Apk Analyzer apk file in Point Mobile Dropbox, Apk Analyzer folder.

Click link : [Point Mobile Dropbox](#)

How to Use Apk Analyzer

1

Install Apk Analyzer apk file on your device and launch

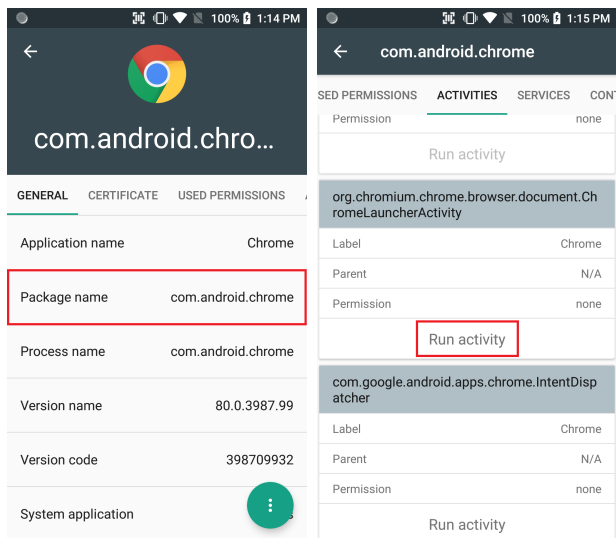

2

Find or search the application which you want to know the package and activity name

3

You can find Package name in GENERAL tab and Activity name in ACTIVITIES tab

Please check with Run activity function that the activity is exactly what you want.

If you input the wrong name, the application icon would not be displayed.
