APPLIES TO

Point Mobile devices with Android 5 or above

How to use Program Buttons

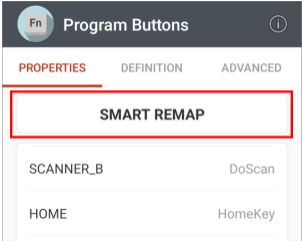

1

Go to EmKit  > Program Buttons  .

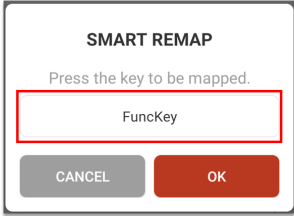

2

Go to **PROPERTIES** tab.

3

Tab **SMART REMAP**.

4

Press the physical button you want to map to another function. (Mapping the power button does not supported)
And then, tap **OK**.

5

Tap **APPLY** to save.

Mappable Key & Function List

Refer to [Program Buttons User Guide - PROPERTIES](#) (log-in required) to find the mappable key and function list.
