

PM5 Battery & Charging

Supporting Battery Type

PM5 supports two types of replaceable Li-ion battery:

	Standard	Extended
Capacity	4.35V, 510mAh	4.35V, 700mAh
Figure		
Charging time	About 3 hours	

* Charging time is measured from fully discharged to fully charged.
* Charging time of standard and extended battery is almost same as the charging current of extended battery is higher.

How to Charge

The PM5 itself don't have charging connector. So you need an accessory to charge or need to charge battery separately.

You can charge PM5 through one of the following accessories.

Trigger accessory <ul style="list-style-type: none">• Single trigger• Sled	Charging cradle <ul style="list-style-type: none">• 8SBC• 4SC
